Up to date on vet work including just getting his teeth done. Good with his feet. Hauls without problems. Drinks and eats on the road. Stands to the trailer all night or stalls with ease as well. 2007 AQHA Sorrel Gelding x Peppys Blue Olena x Hancocks Blue Olena out of Feature Trip x Another Feature. Melvin was born on our place in Washington State. He has a great disposition, gentle to handle, sweet in your pocket type horse who comes running from the fields to get caught and stands at the fence watching you out in the barn yard. He has been handled by every experience level and age. My 4-year-old daughter can put a halter on him because we have taught him to drop his head to the ground for her to put his halter on and off and handle him at her height. Melvin has been hauled to barrel races and won money in the 3D. He is a push style horse and not a free runner. He is ratey and will not run off. Has been patterned on the poles as well and really moves off your legs to be quick in between. For the past 2 seasons now he has also been picking up bucking horses and roping bulls. Runs hard to horses, loves to work. Has a lot of pull. Melvin has also been roped on as well. Been used for both the heading and the heeling. Can handle both really well. Good in the box, never done anything stupid. I have also been roping breakaway calves on him as well. I rope really well on him because I am an aggressive rider in the breakaway roping. Like to really ride across the line. He is good in the corner and moves off your hand but gets across really nice with an aggressive rider from the start. He is great to haul on the road. Drinks and eats. Stands tied to the trailer all night or turn him out in the pen with the rest of our herd. No pawing or digging. No bad habits. Been ridden through parades, carried flags, pulled clowns around the arena, been through multiple fireworks show. Loud music and excit-

ing action doesn't bother him. Sound, has a scar on his the front of his front leg that he got as a colt but there was no damage done to any muscles or ligaments and was never lame on it. Call for more information, pictures and videos available. 509-951-9133. Coggins. SR14

He has been ridden by all ages and experience levels. He has been used extensively on the ranch and in the feedlot gathering, trailing, pasture doctoring, sorting and dragging calves to the fire at branding. When you are out moving cows he will cross water, bogs, rivers, logs or anything you point him at with out a second thought. You can ride him away from the group with out a fuss. Kids and inexperienced riders have no problem with this as well. Everything Trigger does is at a calm even pace. His gates are smooth and comfortable and you can ride him in any bit from a snaffle to a spade. He will go all day, and is used to that pace. He rides out the same no matter what the weather or time of year or how much time he has had off or how much green grass he has in him. He has been used heading and heeling in the arena and is working very well. He is ready for anyone to take to a jackpot. For more information Call John Clark at 406-380-0517. 1993 AQHA Sorrel Gelding x Dee Cee Doc x Tanquary Gin out of Classy Sugar Jet x Easy Thistle. Doc is a 1993 model Gelding that's bred to cow on the top-(Doc O'Lena) and run on the bottom- (Easy Jet) and he will do both. He put out his left eye about a year ago and I can not use him for heeling. He has a number of good years left and he would be great for roping calves, breakaway, and bull-doggin' ----I'm too old for that anymore. He has been roped on by Paul David Tierney and he also ran some bulldoggin' cattle on him. I can't guarantee him sound because he has thin soles and has worn pads for many years. I have had no problem when he wears the pads. He is probably one of the best looking geldings I have owned and I just want him to have a good home that will utilize his skills. Thank you for looking. MICKEY - 2005 GRADE Bay and White Pony Gelding. Mickey is a flashy good sized pony ready for a new family to love him. He is easy to catch, handle and be around. Good with his feet, and ears. Likes to be loved on. Our 4-year-old daughter has been riding and training on him. She is quite the hand and has done a good job with this guy. Good to ride both outside on the trails and inside the arena. Been taking him to the river to swim and he enjoys the water. He has a nice handle. Knows all his cues. Walks, trots and lopes without fighting. Has a good stop and back up. He is patterned on the barrels and poles. Our daughter has been roping the dummy off him as well. Big enough that an adult can ride also. I have been heeling steers on him at home. Competitive junior rodeo all around pony. Perfect age, would be a great first pony or something for the rodeo kids to go win on. Videos and more pictures available. ### A Big THANK YOU from Double Dollar Livestock

In March of 2003 I sat in the bleachers of the Billings horse sale wondering if I was wasting my time being there. I had come for the annual Billings bull sale and was told there was a monthly cull horse sale the weekend before, so I decided to come early to observe for myself. Now as I watched the horses go through even though a lot of them seemed very good I found myself not bidding for fear of problems not being disclosed.

Finally a black 4 year old gelding came through which was very green broke but as I watched he really seemed as though he wanted to be somebody. I thought "what the heck" I'm going to take my chances on one. He cost me \$3200. Then a couple of hours later after watching a number of horses go through (which looking back I should have bought) a very little somewhat ugly sorrel gelding with a head two sizes too big for his body went through. The owner no-sold him for \$3,000. I hurried and turned to him in the catalog to see what would have made anyone bid that much for such an ugly colt or why the owner wouldn't have taken it. I found he was published to be a son of High Brow Hickory out of a daughter of Peppy San. I jumped up and ran to catch the seller and find out if his pedigree was a misprint. After hearing about the colt's mother and the owners breeding program I bought also him. As I drove the 12 hours home I couldn't help but wonder if I had gotten a little "buy happy". Without going into all of the details of the entire story, I will suffice to tell you in December of that same year, at our Double Dollar roping horse sale, after a rigorous training program, the Black horse sold for \$31,000 and you probably couldn't buy him back for any price from the gentleman who still owns the horse. The small Ugly 2 year old sorrel gelding we now call "Hickory", during the next two years turned into a 15'2" 1240 lb. very nice looking horse that will die on our ranch with a head stone. My son Quinn has won well over a half million dollars on him already, numerous titles, saddles and drawers full of buckles, bridles and spurs. His state and national titles included wins in breakaway, heading and heeling events. My daughter also competed on him in barrels, polls and goat tying. Quinn took second on him last year at the Bob Fiest Invitational roping in Reno Nev. as a senior in high school where he won \$48,000 in cash and \$8,000 in prizes and sponsorships. Hickory and my son Quinn have also been on the cover of the Church of Jesus Christ of Latter-day Saint Worldwide youth magazine and the Super Looper.

Since that first trip to Billings I have been back a number of times and would have been back more often if we could train more horses. I have bought as many as 15 at a time. We don't trade or sell horses' short term. Any horses we buy go into at least a year of training. There is nothing worse than getting on a horse everyday that you hate to ride or having one on your place that you know is going to lose you money every day he is there. For those two reasons and a 12 hour drive I would have stopped going to the Billings horse sale years ago if there weren't lots of great horses to choose from when I got there.

The moral of this story is, if someone spreads the rumor to you as they did to me that the only horses they have at the Billings sale are culls, feel free to call me at 435-701-5979 so I can assure you that whoever spreads that rumor apparently doesn't know horses. I have brought many horses home with me from Billings over the past decade which have been very profitable. Many of them after going through our training program have made us 10 to \$20,000 each, not to mention the ones we will not sell because they are irreplaceable Like Hickory or Beau (Beau Bar Chex one of proven sires). I drive this far because I can get as much for started colts and riding mares as I can anywhere else I could take them. At the same time I can choose from several hundred horses ones to buy which will fit our operation. I tip my hat to Jan and Bill, and hope for the sake of my operation and many other horse programs around the west that the Parkers continue to do their monthly magic

## Awesome Pony Gelding

**FRANKLIN**- 2006 GRADE Buckskin Pony Gelding. Franklin is absolutely just as sweet as he looks. He is very kind pony that our 4yr old daughter can do whatever she wants with him. She catches him herself, saddles him herself, cleans all four feet, bathes him, she pretends to trim his feet with the rasp and foot stand. Franklin is a mom's best friend because he will take every bit of what the kids dish out and believe me, around here the kids do things that would make you think what in the... are they doing to that pony now. Franklin rides outstanding, going where ever you ask him to go, Lana will ride him with a saddle or bareback, she rides him outside through the hay fields, down the gravel road, through the water holes and everywhere in between. This is a great little pony, he is cute as a button and safe as you can get one. A happy little pony that I have yet to see him get mad. 612-810-5455 Coggins S103

# \$\$ Double Dollar Livestock - Holden, UT Special Offering

## From Greg Kesler, Double Dollar Livestock

For the past 20+ years at Double Dollar we have been running 50 brood mares. We keep 15 replacement fillies every year and pick the best ten or less. If we keep 10 replacements we then have let ten mares go we didn't want to exceed 50 mares. Every mare (with only an occasional exception due to injury) is broke to ride as a 2 year old. If we are not completely happy with the way they ride we get rid of them. As we start working with and riding their foals, if we find one that does not meet our expectations, that colt and his mother are both traded off. We have found buying the best stud prospects we can find to fit our program. Then sifting the mares this extensively with the most important criteria being how is their disposition, and how do they ride. You end up with a set of mares like the ones we are bringing to Billings.

The reasons for cutting back our brood mare band from 50 head to 20 is twofold. My son Quinn who has been my right hand since he was 10 or less, just left on a mission for our church and then he plans on taking a run at the NFR, we are also currently in the worst drought in recorded history in our area.

They say "one man's loss is another man's gain". I hope whoever gains these mares will come to appreciate the same things in them and their colts as we have.

### One Owner • Gentle

2007 AQHA Sorrel Gelding x Peppys Blue Olena x Hancocks Blue Olena out of Feature Trip x Another Feature. Melvin was born on our place in Washington State. He has a great disposition, gentle to handle, sweet in your pocket type horse who comes running from the fields to get caught and stands at the fence watching you out in the barn yard. He has been handled by every experience level and age. My 4-year-old daughter can put a halter on him because we have taught him to drop his head to the ground for her to put his halter on and off and handle him at her height. Melvin has been hauled to barrel races and won money in the 3D. He is a push style horse and not a free runner. He is ratey and will not run off. Has been patterned on the poles as well and really moves off your legs to be quick in between. For the past 2 seasons now he has also been picking up bucking horses and roping bulls. Runs hard to horses, loves to work. Has a lot of pull. Melvin has also been roped on as well. Been used for both the heading and the heeling. Can handle both really well. Good in the box, never done anything stupid. I have also been roping breakaway calves on him as well. I rope really well on him because I am an aggressive rider in the breakaway roping. Like to really ride across the line. He is good in the corner and moves off your hand but gets across really nice with an aggressive rider from the start. He is great to haul on the road. Drinks and eats. Stands tied to the trailer all night or turn him out in the pen with the rest of our herd. No pawing or digging. No bad habits. Been ridden through parades, carried flags, pulled clowns around the arena, been through multiple fireworks show. Loud music and exciting action doesn't bother him. We have been snubbing colts and ponying race horses on him since he was 2 years old. I have used him in the feedlot and gathering and sorting in the mountains, he's drug calves to the fire and been heeled on some. I have packed flags on him at many WTRC Ropings and the kids have played with him on the barrels as well. I have owned him since the day he was born, and know him inside and out. You will look high and low to find a horse any more honest as Duece. He sells sound! Watch him Friday in the Jackpot and in the preview...you won't be disappointed...
